

## Tuition and Credit Guidelines for Term Abroad

The annual tuition at Union College allows a student to register for three terms taking three courses per term. You have been accepted to a semester-length term abroad that carries four courses rather than the usual load of three. In this instance, we believe the four-course Term Abroad to be an enriched academic experience, and it will appear on your transcript in accordance with the College-wide Policy on Fourth Courses in the [Academic Catalog](#).

Please read the following carefully and make sure you understand the financial and course credit implications. **Please note that you are not allowed to register for only three courses on this Term Abroad.**

You will receive four course credits on the Term Abroad and these courses will appear on your transcript with their grades factored into your GPA. There will be no additional financial charges.

I have read the above and understand how the fourth course credit will appear on my transcript.
